January 6, 2012

To: Municipal Authority
From: Mark Miller
Re: December Monthly Report

Meters: Meters were read on a daily basis as well as the portable meters.

C.C. Collection: The main breaks that were located in Supple Valley have been repaired. We are in the process of televising some laterals that were active when they were televising. The public works department has to excavate Strasburg Toad on Thursday to replace a broken manhole cover.
The pumping stations were visited on a daily basis for routine maintenance. The number one pump at Ashbridge had to be pulled and sent out for repair when the main seal went bad causing the motor to trip out on overload. We were notified of a sewer lateral blockage on Barker Drive, the public works dept. was able to clear the blockage by using a plunge ring in the stack pipe. We placed a dozen vent caps for the month.

Lochwood Plant: Routine maintenance was performed during the month.

R.C. Collection: The pumping station was visited on a daily basis as part of our routine maintenance.

Ridley Plant:

The public works department performed routine maintenance during the month of December. The trough was vacuumed out in the screen room. The parts have arrived for the UV chamber; we will schedule the bulb replacement later this month. The burnt out uv rack was delivered to Siemens for repairs; I hope to have it back by the end of the month.

Alarms:

We received 34 alarms for the month of December.

PA One Calls:

The Public Works Dept. responded to 117 PA One Calls.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

SOUTHEAST REGIONAL OFFICE

December 29, 2011

Mr. Louis F. Smith
Township Manager
East Goshen Municipal Authority
1580 Paoli Pike
West Chester, PA 19380-6199

Re: NPDES Discharge for Stormwater Construction
Activities
Lockwood Chase STP Diversion
No. PAI01151127
East Goshen Township
Chester County

RECEIVED
BY: _____
JAN 3 2012

Dear Mr. Smith:

Enclosed is the above-referenced permit which authorizes the discharge of stormwater from the construction activity described in the final erosion and sedimentation control plan and the permit application. Please contact the Chester County Conservation District to make arrangements to obtain your copy of the approved final erosion and sedimentation control plan. The plan must be fully implemented and available at the construction site. A pre-construction meeting must be scheduled with the District. Failure to do so may result in suspension of your permit.

Please read carefully Parts A, B, and C of the permit which detail the terms and conditions of this authorization. Conservation district's staff and/or representatives of the Department of Environmental Protection may inspect this earthmoving activity to determine compliance with applicable permit requirements, Chapters 92, 101, and 102 Rules and Regulations and the Clean Streams Law.

Permit requirements and federal regulations at 40 C.F.R. Section 122.21(b) require "when a facility or activity is owned by one person but is operated by another person, it is the operator's duty to obtain a permit." Please be advised that once a contractor has been selected for the project, the permit must either be transferred to the contractor or the contractor must be made a co-permittee. The enclosed form must be used to add a co-permittee.

Enclosed is a Notice of Termination form to complete and file when construction activities have ceased and final stabilization has been achieved.

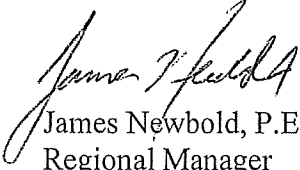

This authorization does not relieve the applicant from applying for and obtaining any and all additional permits or approvals from local, state, or federal agencies for the construction activity.

Mr. Louis F. Smith

December 30, 2011

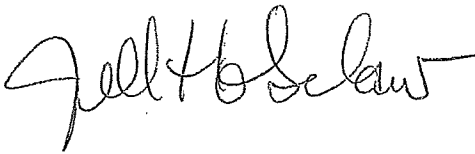

Dear Martin Shane,

Thank you for your continued financial support of the Malvern Library. I live in East Whiteland Township and use the services of the Malvern Library. The Malvern Library is valuable resource for our community.

Recently, Willistown Township asked for Cub Scout Packs 98 and 71 to assist in their Eighth Annual Coat Collection Drive. We approached the Malvern Library in hopes to use their library as a drop off location and they graciously granted us permission. With their help we collected 564 coats.

This is only one of the many ways the Malvern Library helps the local community. I trust you will continue to financially support this valuable resource in our community.

Respectfully,

Jill Hoisclaw
